The Sea Hunters II

Description	For twenty-three years, Clive Cussler's NUMA—the National Underwater & Marine Agency—has scoured the rivers and seas in search of lost ships of historic significance. His teams have been inundated by tidal waves, and beset by the vagaries of man and nature, but the results—and the stories behind them—have often been dramatic: The 2000 raising of the Confederate submarine Hunley made national headlines. Here, then, are more true tales of sea- and land-going adventures, as Cussler and his crews set out to track down history. The famous ghost ship Mary Celeste, found floating off the Azores in 1872 with no one on board; the Carpathia, the ship that rescued the Titanic survivors and was itself lost to U-boats six years later; L'Oiseau Blanc, the airplane that almost beat The Spirit of St. Louis across the Atlantic before disappearing in the Maine woods—all these, plus steamboats, ironclads, a seventeenth-century flagship, a certain famous PT boat, and even a dirigible, prove...

In the present, Cabrillo, chasing the remnants of a crashed satellite in the Argentine jungle, stumbles upon a shocking revelation of his own. Polar Shift (NUMA Files)

Description	Polar shift: It is the name for a phenomenon that may have occurred many times in the past. At the very least, it disorients birds and animals and damages electrical equipment. At its worst, it causes massive eruptions, earthquakes, and climatic changes. At its very worst, it would mean the obliteration of all living matter, and if that happens-exit Earth. Sixty years ago, an eccentric Hungarian genius discovered how to artificially trigger such a shift, but then his work was lost, or so it was thought. Now, the charismatic leader of an anti-globalization group plans to use the work to give the world's industrialized nations a small jolt, then reverse the shift back again. The only problem is, it cannot be reversed. Once the shift starts, there is nothing anyone can do about it. Austin, Zavala, and the rest of the NUMA Special Assignments Team certainly have faced dire situations before, but never have they encountered anything like this. This time . . . even they may be too late.

Black Wind

Description

Clive Cussler's dazzling new Dirk Pitt(r) adventure. Clive the Mighty!" hailed Kirkus Reviews about Cussler's last Dirk Pitt(r) novel, Trojan Odyssey. "Hurricane Clive at his most tumultuous." Nobody has been able to match Cussler yet for the intricate plotting and sheer audacity of his work, and Black Wind sets the bar even higher. In the waning days of World War II, the Japanese tried a last desperate measure-a different kind of kamikaze mission, this one carried out by two submarines bound for the West Coast of the United States, their cargo a revolutionary new strain of biological virus. Neither sub made it to the designated target. But that does not mean they were lost. Someone knows about the subs and what they bore, knows too where they might be, and has an extraordinary plan in store for the prize inside-a scheme that could reshape the world as we know it. All that stands in the way are three people: a marine biologist named Summer, a marine engineer named Dirk, and their...

The Chase

Description

For decades, Clive Cussler has been delighting readers with novels filled with suspense, action, and sheer audacity. Now he does it again, in one of the wildest, most entertaining historical thrillers in years. April 1950: The rusting hulk of a steam locomotive rises from the deep waters of a Montana lake. Inside is all that remains of three men who died forty-four years before. But it is not the engine or its grisly contents that interest the people watching nearby. It is what is about to come next . . . 1906: For two years, the western states of America have been suffering an extraordinary crime spree: a string of bank robberies by a single man who cold-bloodedly murders any and all witnesses and then vanishes without a trace. Fed up by the depredations of the "Butcher Bandit," the U.S. government brings in the best man they can find—a tall, lean, no-nonsense detective named Isaac Bell, who has caught thieves and killers coast to coast. But Bell has never had a challenge like this...

In previous encounters, Austin and his colleague Joe Zavala have battled eco-extortionists and mad empire builders-but they have never faced a menace like the one before them now. Claiming Romanov ancestry and backed by billions of dollars, he is determined to overthrow the already shaky Russian government-and U.S. opposition doesn't bother him one bit. A little crisis of their own should distract the Americans for a while, and he knows just the thing. . . . Filled with all the hair-raising action and endless imagination that are Cussler's hallmarks, *Fire Ice* is a dazzling thriller from the grandmaster of adventure fiction.

Corsair

Description For five novels, Clive Cussler has brought readers into the world of the Oregon, a seemingly dilapidated ship packed with sophisticated equipment, and captained by the rakish, one-legged Juan Cabrillo. And now the Oregon and its crew face their biggest challenge yet. Corsairs are pirates, and pirates come in many different varieties. There are the pirates who fought off the Barbary Coast in the late eighteenth and early nineteenth centuries, the contemporary pirates who infest the waters of Africa and Asia, and the pirates . . . who look like something else. When the U.S. secretary of state's plane crashes while bringing her to a summit meeting in Libya, the CIA, distrusting the Libyans, hire Juan Cabrillo to search for her, and their misgivings are well founded. The crew locates the plane, but the secretary of state has vanished. It turns out Libya's new foreign minister has other plans for the conference, plans that Cabrillo cannot let happen. Dirk Pitt discovers Atlantis, in a breathtaking novel from the grand master of adventure fiction. Clive Cussler has long since proven himself one of America's most popular authors--a master of intricate, audacious plotting and "vibrant, rollicking narrative" (Chicago Tribune). March 2001: A team of anthropologists gazes in awe at a wall of strange inscriptions, moments before a blast seals them deep within the Colorado rock. April 2001: A research ship manned by Dirk Pitt and members of the U.S. National Underwater and Marine Agency is set upon and nearly sunk by an impossibility--a vessel that should have died fifty-six years before. Pitt knows that somehow all these incidents are connected, and his investigations soon land him deep into an ancient mystery with very...
